

Oluwasegun Adedeji

oluwasheges@gmail.com

Front-End Engineer with 4+ years of experience building enterprise web applications for financial, government, and regulated industries. Proven track record delivering secure, scalable platforms with KYC onboarding, payment processing, and compliance workflows. Led projects achieving 200% revenue growth and 35% API performance improvement through cross-functional collaboration with backend engineers and UX designers.

Work Experience

Golden Edge Softech, Lagos, Nigeria

Lead Front-end Engineer (Full-time, Hybrid) | April 2022 - Present

- Led frontend development of an enterprise product with 2 backend developers, focusing on UX optimization and eliminating user pain points, resulting in 200% revenue growth in six months and improved user satisfaction
- Collaborated with backend engineers to optimize API calls, reducing frontend API response times by 35%
- Collaborated with UI/UX designers to translate Figma designs into pixel-perfect, responsive Vue 3 components using TypeScript and Tailwind CSS, improving design accuracy by 90%
- Architected and implemented a real-time chat system for an artisan marketplace platform using WebSocket technology, enhancing vendor-customer communication and platform engagement
- Implemented role-based access control systems with multiple user permission levels and secure JWT authentication workflows
- Acted as lead frontend developer on a cross-functional team, ensuring smooth deployment of a new product feature that increased engagement by 15%

Eco Diversified Network, Ogun, Nigeria

Web Developer (Contract, Remote) | August 2023 – December 2024

- Developed the NGO's website for a climate-focused organization, collaborating with the core team to ensure a functional and user-friendly platform aligned with environmental sustainability initiatives

- Managed and published blog content, optimizing posts for SEO to improve visibility and engagement

Elafri Hub, Lagos, Nigeria

Web Developer (Contract, Remote) | September 2021 – December 2022

- Expanded the agency's service offerings beyond branding to include full-scale web development, improving business growth by introducing custom WordPress solutions, and attracting new clients
-
